Ricoh Argentina SA
Post-Sales Engineer - Sysadmin
(July 2019 - June 2022)

Industry leading high volume printing services and digital services.
- Maintenance of customer printing services (GMC, Planet Press, IPPD)
- Development of new services for new customers (GCBA Taxes, Escobar's City Hall y Quilmes City Hall, among others.)
- R&D for the creation of new services for the daily and internal use of the printing plant.
Major Achievements
- I developed the changes requested by Natura Cosméticos (a member of Ricoh's "Customer Experience" program) in their invoice forms and I managed to be the client's technical reference, without having the necessary experience.
- I managed to change the way Development works within the Engineering sector by integrating versioning solutions (GIT/Github/Gitea).
